---

Mosaic is also dealing with the EPA Water Division and the RCRA Division on Phosphate Mining issues, but none that I would think would involve Franklin.

Brad,

Thank you. I was informed that Mosaic had other involvements than just the phosphate issue. I did not want to assume this was a phosphate issue or another issue Mosaic was involved with.  
Sincerely,

Jennifer Guillard

Jennifer:

I am the remedial contact for all of the phosphate mining sites in Florida, including the Mosaic sites.

Brad

Thanks-I'd recommend copying Derek Matory and Brad Jackson for us.

Carol

Good Afternoon,

I have informed Satish of the postponement of this meeting. He is looking for dates in July, after the 4th, to reschedule. I informed him that someone will be back in touch with him and inform him of some dates, as soon as we were aware.

Carol, I am not sure of the contact from the Remedial side that is working with Satish on this particular project, especially since Mosaic has several extensions within Superfund sites; but if you like, I can copy the individual on these requests from Satish. If you would let me know who that would be, I can ensure they are also kept informed of the contacts received.

Other than that, I hope everyone has a great day!

Sincerely,

Jennifer Guillard
